Short Answer:

1. Have you attended a summer program in the last five years? If so, give details and dates.

2. Have you traveled outside of the United States? Give details telling purpose, length of stay, and with whom you traveled for each country visited.

3. Why do you wish to travel to Ireland and England?

4. Why do you want to participate in this GLEAN expedition to work on the documentary project?

5. These are the main questions we are asking on the trip, please give a brief answer to each.

1. How do you relate to your body, particularly your menstrual cycle?

2. How do you relate to time?

3. What is your support network?

4. How has your mother influenced who you are?

5. How have you developed your sense of self?

6. What is your connection to nature?

7. How would you want your daughter's experience growing up as a woman to be different from your own?

6. GLEAN expeditions bring young people to remote areas of the world where they will spend time in the most beautiful scenery in the world, meet interesting people, and participate in fun and unique activities. All these can be wonderful experiences, but this type of trip also has its challenges: being far from home, not eating foods you're used to, extreme forms of weather, being with a small group for an extended period of time, and not having the conveniences of home. How do you deal with unforeseen challenges that arise? Give an example of a time when life was difficult for you and what you did to cope or survive.
